

Accelerating Mining in Latin America (AMILA)

Expand the commercialization of your Canadian mining-related technology into Latin America.

Target Countries:

-  Brazil
-  Chile

Program delivered by in-country experts

You are:

A Canadian SME with:

- Sales: domestic or international
- Experience exporting to at least one other international market
- An existing international strategic development plan involving Latin America

Why you should participate?

- To gain access to new geographical markets
- To diversify your sales base
- To increase your sales and revenue
- To increase your awareness of global perspectives in the creation and development of new products

How much does it cost?

Initial assessment: Free

- Identify company needs
- Assess the development stage

Project Scope: Free

- Work plan development
- Mentorship and advice from TEC Edmonton in-country experts

Project Plan: \$2,500

With a-la-carte options:

- Business development services
- Networking
- Translation support
- Marketing & Sales
- Support before & after trade missions
